NATURAL GAS

To the Electors of the City of Wetaskiwin:

You have had before you, by one of the candidates for the office of mayor, an appeal for your support for the coming year and it is but fair that you should also have the opportunity of learning what, if any measures I would recommend to the incoming council I elected to the office to which I aspire.

Let me say in the first place that I have "no axe to grind" no personal matter to be adjusted, nothing to gain by any movement in real estate circles, but having had several years experience in the affairs of the city as a member of the City Council, as well as being versed in its growth and development from its birth to the present, my friends have exacted a promise from me that I would accept the nomination for the office of mayor for the coming year.

(For lack of space this article will be somewhat condensed and abbreviated.)

It is useless to enumerate the causes of the conditions we are experiencing, and toward which we are drifting—you are all more or less familiar with them.

I will, however, endeavor to place before you the measures I will recommend to the new council and do all in my power to have carried out, and you are the judges whether the applications of these measures will meet the requirements and relieve the conditions or not.

The council of the past two years have endeavored to lay the foundations at least of a system of Waterworks and sewerage, and in carrying out upon them to do after the securing of the charter. Financial conditions have prevented the installation of these works and probably this has been a blessing in disguise, as the water supply recommended by our engineers does not appear to have sufficient volume for these purposes and I would recommend the council to make no further expenditure in this matter except such as will be certain where the supply of water is to come from.

I will urge the incoming council to take immediate steps to secure the validation of the bylaw passed for the purpose of proceeding with the deepening of the Natural Gas well. We have a sufficient flow of Natural Gas to supply the city and no time should be lost after the New Year in getting this work started. It is unnecessary to recapitulate the advantages that would accrue to us through the securing of a commercial supply of Natural Gas—our subscribers would then bring a price that would enable us to install other public utilities without a war.

The installation of the gas meter for the electric light plant would enable us to supply current at a greatly reduced rate in fact I verily believe our light could be reduced 50 per cent. If a business system was introduced for the management of this department and I would recommend early in the year, the appointment of a special commission to investigate fully the electric light department of the city, the commission to have full power to examine all books and papers relating to the production and distribution of the current as well as the methods and practice of the rendering and collection of accounts. This commission should be composed of men capable of handling this matter thoroughly, recommending to the council a form of contract for the owner of property, the tenant and the transient user of light, able to go into the question of supplying motor power for the industries now anxious to receive it, and to prepare schedules for power that could be offered to any industry desiring to locate here.

The question of cheap power will solve the problem of building up the city with manufacturing industries, and this matter should be handled thoroughly by competent men.

I would recommend at the beginning of the year the appointment of an assessor, to assess the rateable property of the city according to the provisions of the Municipal Ordinance and insist that these provisions be carried out as to the TIME of the completion of the matters relating to the assessment and collection of taxes.

Our SYSTEM of assessment is NOT antiquated, unfair or inequitable; but the manner of applying the system in our city for the last year or so has been to say the least, rotten.

I will recommend the completion of our street work and the building of sidewalks earlier in the year, and the adoption of some plan that will lessen the mud-splashing on our principal streets.

I will recommend the grading of our alleys and make it compulsory that stable and other refuse be carried through the alleys and set out on the streets.

I will recommend the plan outlined by our Municipal Officers for the care and removal of snow.

I will favor a grant for the improving and beautifying of our parks and playgrounds.

I will favor a generous grant to the hospital under an agreement to care for our indigent sick at a reasonable rate.

I will do all that lies in my power to suppress vice in all its forms. The most pleasing drive for a summer evening in our city is ruined and the value of property along this highway depreciated from the presence of a still situated thereon. I promise that any movement made to remove this beyond the limits of the city shall have every encouragement and assistance that I can give it.

The reference made in one of our weeklies that my candidature was fostered by a Fraternal Society is too silly to invite a reply. If I have been faithful to the obligations of a noble order, designed to improve and elevate the character of man, and conscientious in performing the duties laid upon me in any position therein, it is a criterion that faithfulness and attention to duty will be carried into any position or duty to which I may be called.

I trust that my position outlined on the matters stated are a sufficient guarantee that any subject of merit will receive the credit and attention it deserves.

The subject of increased protection against fire is now under consideration by the present council and I will, in all probability, be so far advanced that the incoming council will adopt and carry out any unfinished part of their plan.

Believing that a careful study of the measures that I pledge you I will do all in my power to execute, will convince you that I have a vision of a policy that will mean progress to the city, meet the requirements of the conditions before us and tend to place the city upon that financial basis that it deserves.

Yours truly,

H. L. HIGGS

CURE FOR DYSPEPSIA

As is well known, the troublesome complaint arises from over-eating, the use of too much rich food, neglected constipation, indigestion, bad air, etc.

The food should be thoroughly chewed, and never swallowed or swallowed in haste, and should be avoided and exercise taken if possible.

A remedy which has rarely failed to give prompt relief and effect permanent cure, even in the most obstinate cases, is

BURDOCK BLOOD BITTERS

Is sold by regulating and toning the digestive organs, restoring constipation and promoting the elimination of impurities and vigor to the system.

Mr. Anna Sawyer, Gold River, N.S., writes:—I was greatly troubled with dyspepsia, and after trying several doctors and without success, I bought a bottle of Burdock Blood Bitters and I think it is the best medicine there is for that complaint.

SKIN DISEASES

These troublesome afflictions are caused usually by bad blood and an unhealthy state of the system, and can be easily cured by the wonderful blood cleansing properties of

Burdock Blood Bitters

Many remarkable cures have been made by this remedy, and not only have the unsightly skin diseases been removed, and a bright clear complexion been produced, but the entire system has been renovated and invigorated at the same time.

SALT RHEUM CURED.

Mrs. John O'Connor, Burlington, N.S. writes:—“For years I suffered with Salt Rheum, a most distressing malady, and most of them only made it worse. I was advised to try Burdock Blood Bitters. I got a bottle and before I had taken half a dozen doses I could see a change in my condition. I continued its use and now I am completely cured. I cannot say too much for your wonderful medicine.”

NEEDED IT MOST

A regiment of soldiers were recently drawn up one Sunday for church parade, but the church was being repaired and could only hold half of them.

"Sergeant major," shouted the colonel, "tell all the men who don't want to go to church to fall out on the reverse flank."

Of course a large number quickly and gladly spalled themselves of the privilege.

Now, sergeant major," said the colonel, "dismiss all the men who did not fall out and march the others to church—they need it most."

Royal manes for hotels are sometimes the cause of peculiar misunderstandings. An aged farmer from Wellington County, in Ontario, decided to make a visit to Toronto. It was the first time he had been at a city station and when the hotel clerk hurried to him with the interrogation "King Edward" the new comer simply smiled as he answered, "No, sir; Thomas Cox of Brampton."

Calcutta, Nov. 25.—The situation in India has not for years shown such a promise of serious uprising as it does today. Attacks and attempts on the lives of Englishmen, officials and civilians, are of almost daily occurrence. Lord Minto, viceroy of India, hurriedly returned here today from the north, cutting short his excursion in that territory for the purpose of considering measures to cope with the native dissidence, on which officials have been dead to recognize as being alarmingly on the increase.

GURNEY-OXFORD Canadian Range

This new oven feature makes this range a wonderful bread baker

YOU who have worried about an unevenly heated oven—who have had cakes and bread burned to a cinder on one side while the other was dough—you will be glad to hear of this new steel range that is really new. The front of the oven in a Gurney-Oxford Canadian Range is as hot as the back—the heat is evenly distributed throughout. This is done by the new Oxford Division flue. The old style flue drew the heat of the fire to the back of the oven making that the hottest part. This new flue divides the heat and forces half of it to go over the front of the oven keeping it at an even temperature throughout.

Besides this great feature, the Oxford Canadian is fitted with the new Gurney-Oxford reversible grate, that turns every particle of coal gets all the heat out of it. You can keep this range going all the winter, for the grate has interlocking teeth which when operated cuts all the making it as bright and hot as if newly lighted. The grate can be changed without the use of tools or disturbing the flues.

The fire linings are heavy, and may be removed without disturbing the top of the range. This range is built of the finest polished steel-blue finish steel. You should see this Gurney-Oxford Canadian range—or write us for full particulars.

GURNEY-OXFORD Golden Nugget Range

This range at a low price, has more of the special features and improvements of the highest priced range than any other on the market. The fuel-saving Oxford Reversible grate. The heavy, easily-removed fire linings. The evenly heated oven. The detachable copper reservoir. Built of dead flat, patent levelled steel and lined with asbestos. Call and see this Gurney-Oxford Golden Nugget Range or write for booklet.

APPLE A FIRST SOURCE OF HEALTH

The juice of the Olden's Apple is one of the most healthful things in the world. For keeping the blood pure.

Few people there are but enjoy a ripe, juicy apple. But how many realize that it is a medicine as well as a treat?

Apple juice has a very marked effect on the kidneys, increasing their power to throw off the waste products of the body, called uric acid, and thus prevent Rheumatism, Gout, Sciatica, Neuralgia, and similar troubles that come from poisoned blood.

Similarly, other fruits stimulate the action of the liver and bowels—others of the skin. Combined, they keep the blood pure—the body clean and healthy.

To get this effect, however, one must eat a great deal of fruit, or better eat a little fruit and take "Fruit-a-lives."

"Fruit-a-lives" are tablets in which the juices of ripe fruits, with their medicinal value intensified, are combined with valuable tonics. They act directly on Zerkow, Kidneys and skin and put them in perfect condition—thus ensuring the thorough elimination of all waste matter and poisons from the body. Trial box \$5. Regular size \$10.00. For \$25.00, Fruit-a-lives Limited, Ottawa.

ROSENROLL
Rosenroll is not behind with his Cossies.

A new guest has arrived at the Rosenroll Hotel. This time it's a baby boy. The little fellow has come to stay. The mother and child are doing well.

The banquet given by Mr. Huthand proprietor of the Rosenroll Hotel, on the evening of the departure of W. Beckett, the creamery manager, was a great success. Billy had made many friends and we all wish him back again.

Jesse Bros. made their appearance in Rosenroll this week on a collecting visit. The boys thrashed in this vicinity and they gave so much satisfaction they receive the welcome invitation to return next fall.

Ostland & Murray are doing business. The company and clerks are delighted to wait on their customers and best of all at a price that is right. Just try them and you will be convinced.

A basket social will be held on the 27th. This will be the great event of the season. There will be a cake given for the prettiest lassie so trot out your pretty girl and try your luck. A dance will follow the sale of baskets.

Had Heart Trouble and Shortness of Breath for Six Years

MILBURN'S HEART AND NERVE PILLS cured Mrs. M. E. Bright, Burnaby, Ont. She writes: "I was greatly troubled for six years with my heart and shortness of breath. I could not walk eighty rods without resting four or five times in that short distance. I got so weak and thin I only weighed seventy-three pounds. I decided at last to take some of Milburn's Heart and Nerve Pills, and after taking eight boxes I gained in strength and weight, and now weigh one hundred and thirteen pounds, the most I ever weighed in my life. I feel well and can work as well as ever. I did, and can heartily thank Milburn's Heart and Nerve Pills for it all."

Note The Difference

between the ordinary flat lens, as used for the past half century, and the newly discovered TONIC LENS, which artificially provides the finest, steadiest and clearest vision. We are experts in the adjusting of glasses to the eyes of young and old and our knowledge of the human eye and its needs enable us to correctly fit all ages with the right lenses to improve the vision.

Charges moderate.
